There are a lot of exciting enhancements coming to your Surge365 Business with the Vortex! But what does that mean? Here is everything you need to know about the Vortex in one easy to use guide.

How do I get new Vortex Customers?

You'll send your potential Vortex Customers to your own Vortex Customer site. Here they will be able to easily create their Customer account by simply filling in a few fields or signing up with their Facebook account. Once the information is submitted, an email will be sent to your customer and they will need to confirm their account before being able to access the Vortex.

The URL you would give out is:
www.MyVortex365.com/yourending

If you are a SBA, the URL ending would be the same as your SBA URL. If you are a Vortex Plus or Platinum only, your URL ending would be your Surge365 ID Number. This can be found in your Back Office by hovering over your name in the upper right corner.

How to achieve Team Builder, Regional Builder, and National Builder

It's been said that everything rises and falls on leadership. At Surge365 we do everything in our power to provide you the tools to learn and a growth track of success to follow. The following are the beginning levels of leadership and how you achieve them:

Team Builder

Option 1: You can become a Team Builder when you personally accumulate six (6) total points in your first 60 days.

Option 2: You and your team of SBAs must accumulate a total of fourteen (14) points. Six (6) of the fourteen (14) points must come from personal sales. There is no time limit to qualify at this option.

- A Travel Agent program sale counts as one (1) point.
- A Vortex Plus sale counts as one (1) point.
- A Vortex Platinum sale counts as two (2) points.

Regional Builder

You become a Regional Builder by earning five (5) \$1,000 Bonuses. You then start your Regional Builder Group with your next personally enrolled SBA.

National Builder

You become a National Builder by earning 15 \$1,000 Bonuses.

Please Note: These levels are based on bonuses that have been achieved since the launch of Surge365 on March 2, 2015.
